

The image displays two screenshots of the MIT App Inventor web interface, showing the development of an application named "HelloPurrStarter".

**Top Screenshot:**

- Project Name:** HelloPurrStarter
- Screen:** Screen1
- Code Blocks:** A "when Botón1 Click" block is connected to a "do" block. Inside the "do" block, there is an "if" block. The "if" block has a condition: "CampoDeContraseña1 Text" is "1234". If true, it executes "open another screen screenName Screen2". If false, it executes "set CampoDeContraseña1 Text to """.
- Media:** kitty.png, meow.mp3
- System Tray:** Shows the date and time as 01:02 p.m. 09/12/2025.

**Bottom Screenshot:**

- Project Name:** HelloPurrStarter
- Screen:** Screen2
- Code Blocks:** A "when Botón1 Click" block is connected to a "do" block. Inside the "do" block, there is a "call Sonido1 Play" block.
- Media:** kitty.png, meow.mp3
- System Tray:** Shows the date and time as 01:03 p.m. 09/12/2025.
